Comments on HB 235

I am a rancher, outfitter, and sportsman from southeast Mt. (Ekalaka). I would like to take this opportunity to voice support for HB 235. In my area of the state Block Management is a very popular program and one that should be expanded. I feel that HD 235 would provide the ways and means to provide the funding necessary to accomplish this expansion and do so on a voluntary basis without any one group being unfairly targeted. I strongly recommend passage of HB 235 as I feel it is a win-win proposition for all groups involved.
Thank you
Jamie Byrne
