HB 682

License of Social Services

One concern is that if this bill passes it could cause the loss of some social services workers in small communities and or small Health Care Facilities. They my have the experiences but fail to have a BS.

Will the Board set up training class to provide existing Social Workers the opportunity to prepare for the test.

Will the state offer grants for existing Social Worker to attend accredited courses to meet and comply with the requirements out lined for the levels of License.

What will the cost be for the License and will the License be accepted in other States.

Sincerely

Doug Simmons
Social Services Director
Valley View Estates
Hamilton Montana
