MSU Research is important to me. It provides me with a trusted source of information. It has shown me how to be a better steward of the land. It has developed crops suited for my area + conditions. This is all done through a network of people and facilities from Bozeman Campus. to Local Research centers and the Extension Agents located in our Local Communities. This is a Team that works hard to provide the best information to all from producers State + Local government and urban dwellers yes to anybody that needs the help.
