Proposed Motion for Program 08

Program 08-Workforce Development

Add $225,000 Federal Special Revenue (biennium) – Perkins Incentive Grant

Explanation:
The Montana Department of Labor and Industry has granted $225,000 of federal Carl Perkins Incentive Grant funding to the Office of the Commissioner of Higher Education. While the funds were granted in fiscal year 2005, the Office of the Commissioner of Higher Education will not expend the funds until fiscal year 2006. Projects funded from the incentive funds include developing two-year programs in the health field, providing health care education scholarships, and potential continued funding for career assessment systems in two-year colleges that was started with an earlier Perkins Incentive Grant.

Subject: Additional Federal Grant Funds for Workforce Development

Proposed Motion for Program 08...

Alan and Mark
Per your request, attached is a narrative explaining the additional federal funds OCHE has received from the Montana Dept of Labor and for which we are requesting additional federal authority in the 2007 biennium.
Please contact me if you have questions.
