EXHIBIT 10
DATE Jan. 14, 2005
HB

Madam Chairman and members of the committee , My name is Theresa Gardner and I live here in Helena. I am here to speak on behalf of the vocational Rehabilitation and Montana Independent Living services. I have one job. I am employed at Montana Independent Living and have worked there since 1995 I have job couching services from Helena Industries to help me reach my goals.

These services have helped me a great deal in living independently and being responsible for my own life without these programs I would have to rely on my family members and would not be as independent as I am now my life is fulfilling and these programs have played a major role in the quality of my life. I need and greatly appreciate the support and services I can contribute to my community, and also pay taxes. People with disabilities can show others that we can reach goals and have a meaningful life. This would not be possible for me without the supports of Vocational Rehabilitation, Montana Independent Living, and Helena Industries I strongly urge you to support the initiatives to provide services to people with disabilities because it has made a difference in my life and others.
