I have had a lot of problem's in the past, I have a mental illness. I was in Warm Springs children's unit when I was 14, after that I was in mental hospital in Washington + then later back at Warm Springs. Back then I was cutting on myself alot + I was also suicide. I joined Pact 5 yrs. ago + since then I have not been in a state hospital. I've been more independant by being able to do things on my own, such as laundry, shopping, cleaning pet home, I take care of my medicines on my own. I'm learning to cope better with my emotions so I'm less explosive + less suicide.

I want to keep growing + know that Pact will always be there for me. Thank you,

Cristi S. Hansen
