This letter comes to you in support of the financial scholarship program for the continuing achievement that your efforts allow a large population of working parents to achieve their self sufficiency. It is through your generous support that I can get ready for work after writing this message, and be able to bring my Sophie + Emy to their daycare, knowing they are safe, loved, ~~growing~~ + developing in such the way that ~~only in America~~ they should be while I'm away at work.

Plain + simple, I couldn't work without your help at all, unless they were to stay in my car for 8½ hours. This is the reality of our current state of affairs in Montana, and the power you have, determines the fine balance between utter poverty and life filled with dignity, purpose, and the way it needs to be. Please continue on helping, it isn't in vain. Because you help me, I am helping many of our homeless, hungry, and those in despair. Thank you, and God Bless you as you venture into what can be a glorious year, for many.

Deb Miller
