HB 259

January 17, 2005

House Judiciary Committee Members
P.O. Box 200400
Helena, MT 59620-0500

Dear Committee Members,

As Montana voters we stated loud and clear in the last election that we saw marriage defined as between a man and woman. House Bill 259 would allow same-sex couples the privileges that married couples in our state are allowed.

As elected officials you represent the people of the State of Montana. To pass this bill would stand in direct opposition to what the people of this state want. This is very clearly a back door attempt to bypass the voice of the people of Montana. Please stand with the overwhelming majority of Montanans and vote against House Bill 259.

Sincerely,

John Fenlason Irene Fenlason
