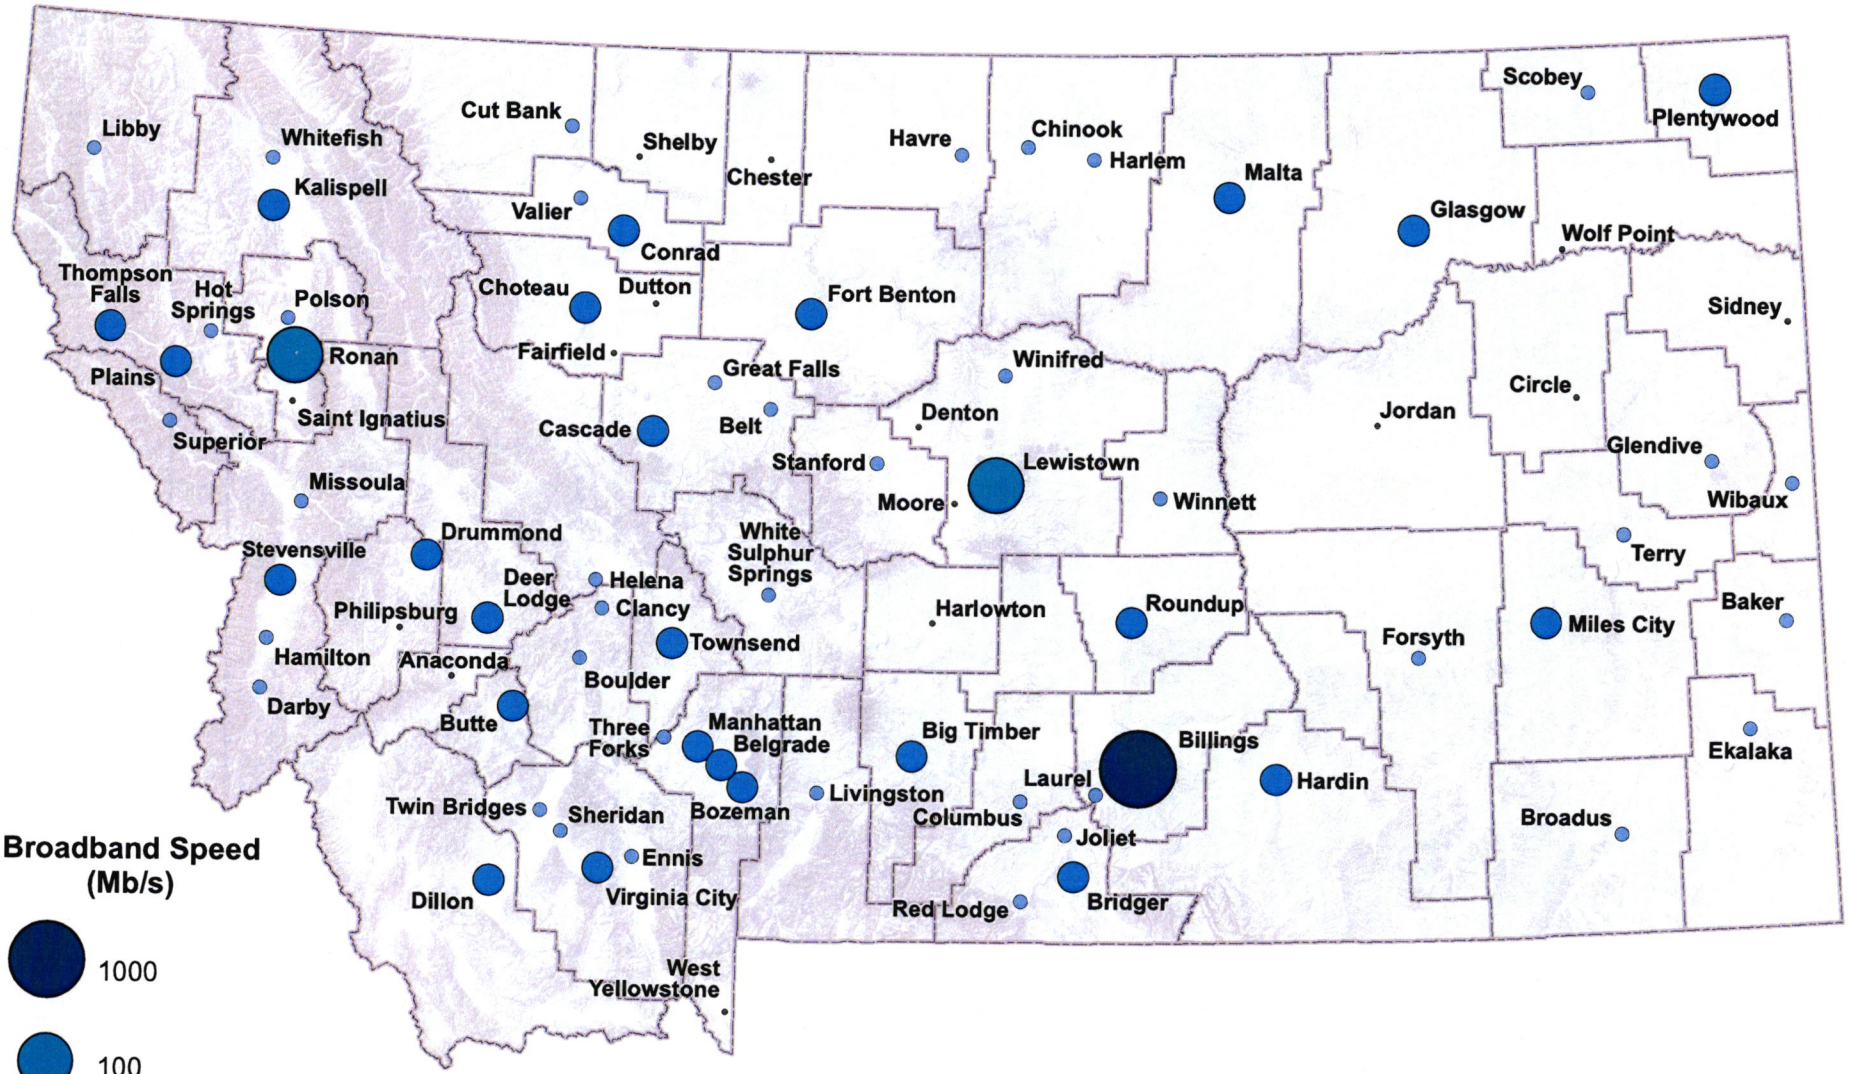
Montana Public Libraries: Subscribed Broadband Speed (2014)



Broadband Speed (Mb/s)

- 1000
- 100
- 11 - 50
- 1 - 10
- not reporting

Public libraries in Billings, Lewistown and Ronan are currently the only public libraries in Montana that meet the bandwidth target adopted by the Federal Communication Commission. These targets are 100 Mb/s for libraries that serve populations less than 50,000 and 1 Gb/s for libraries that serve populations greater than 50,000.
