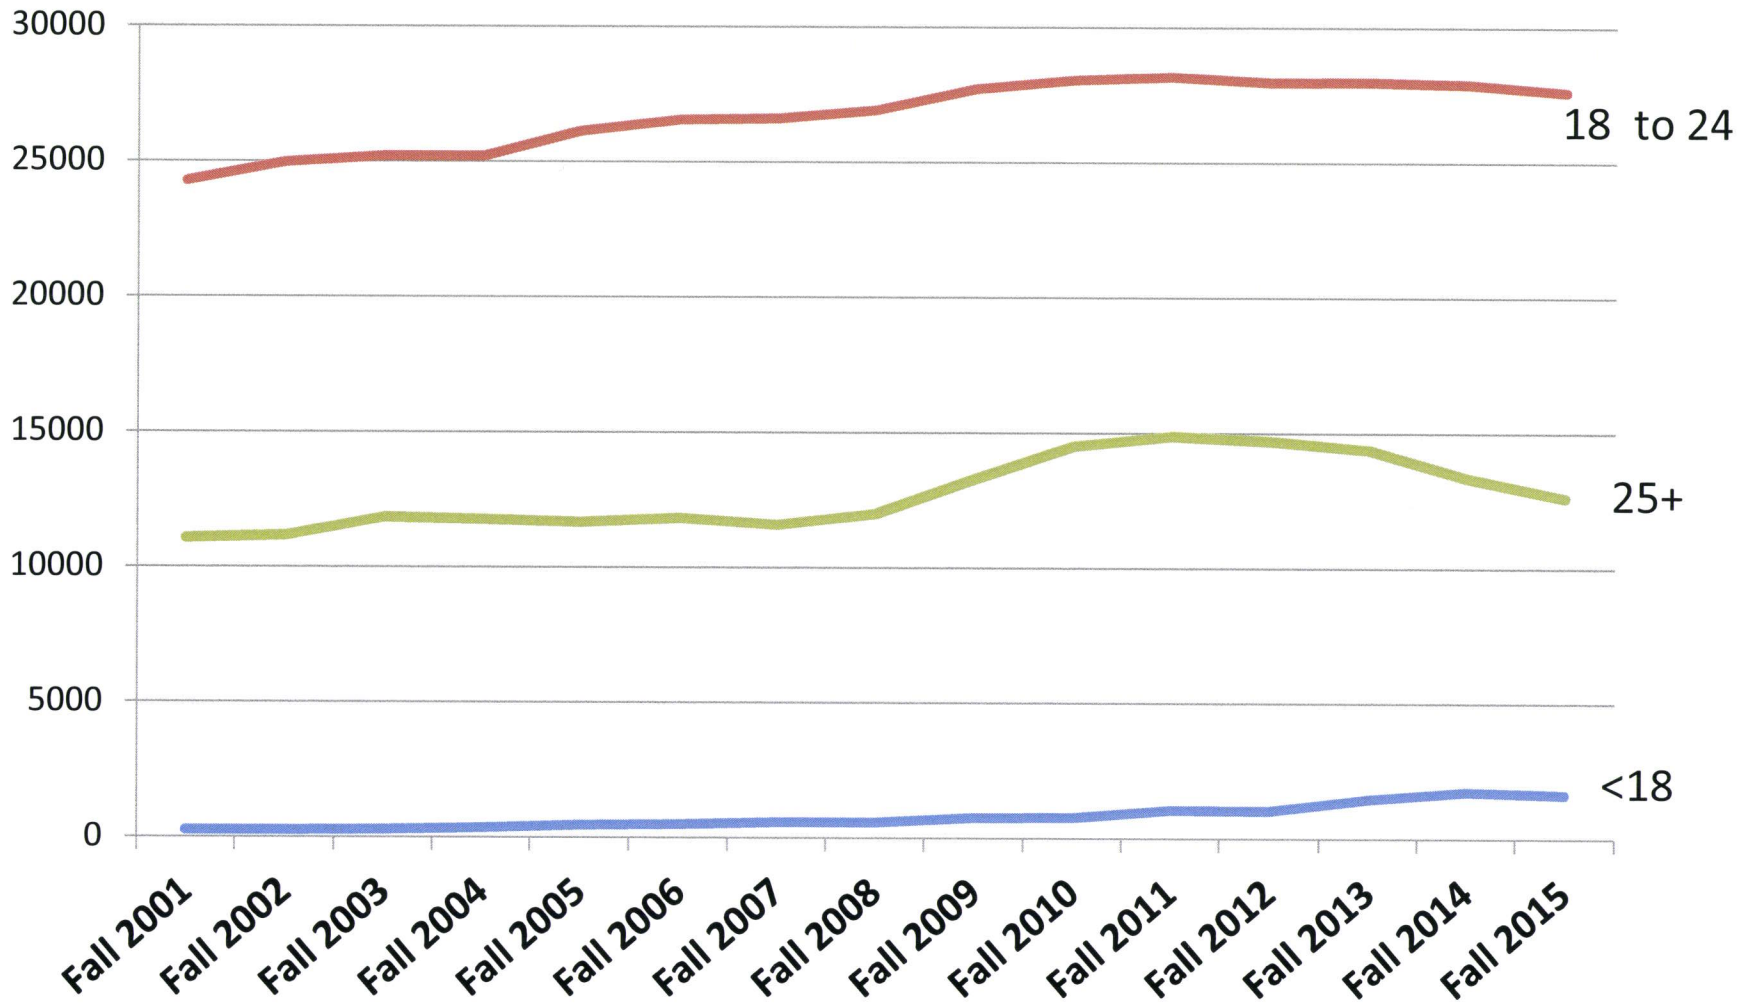
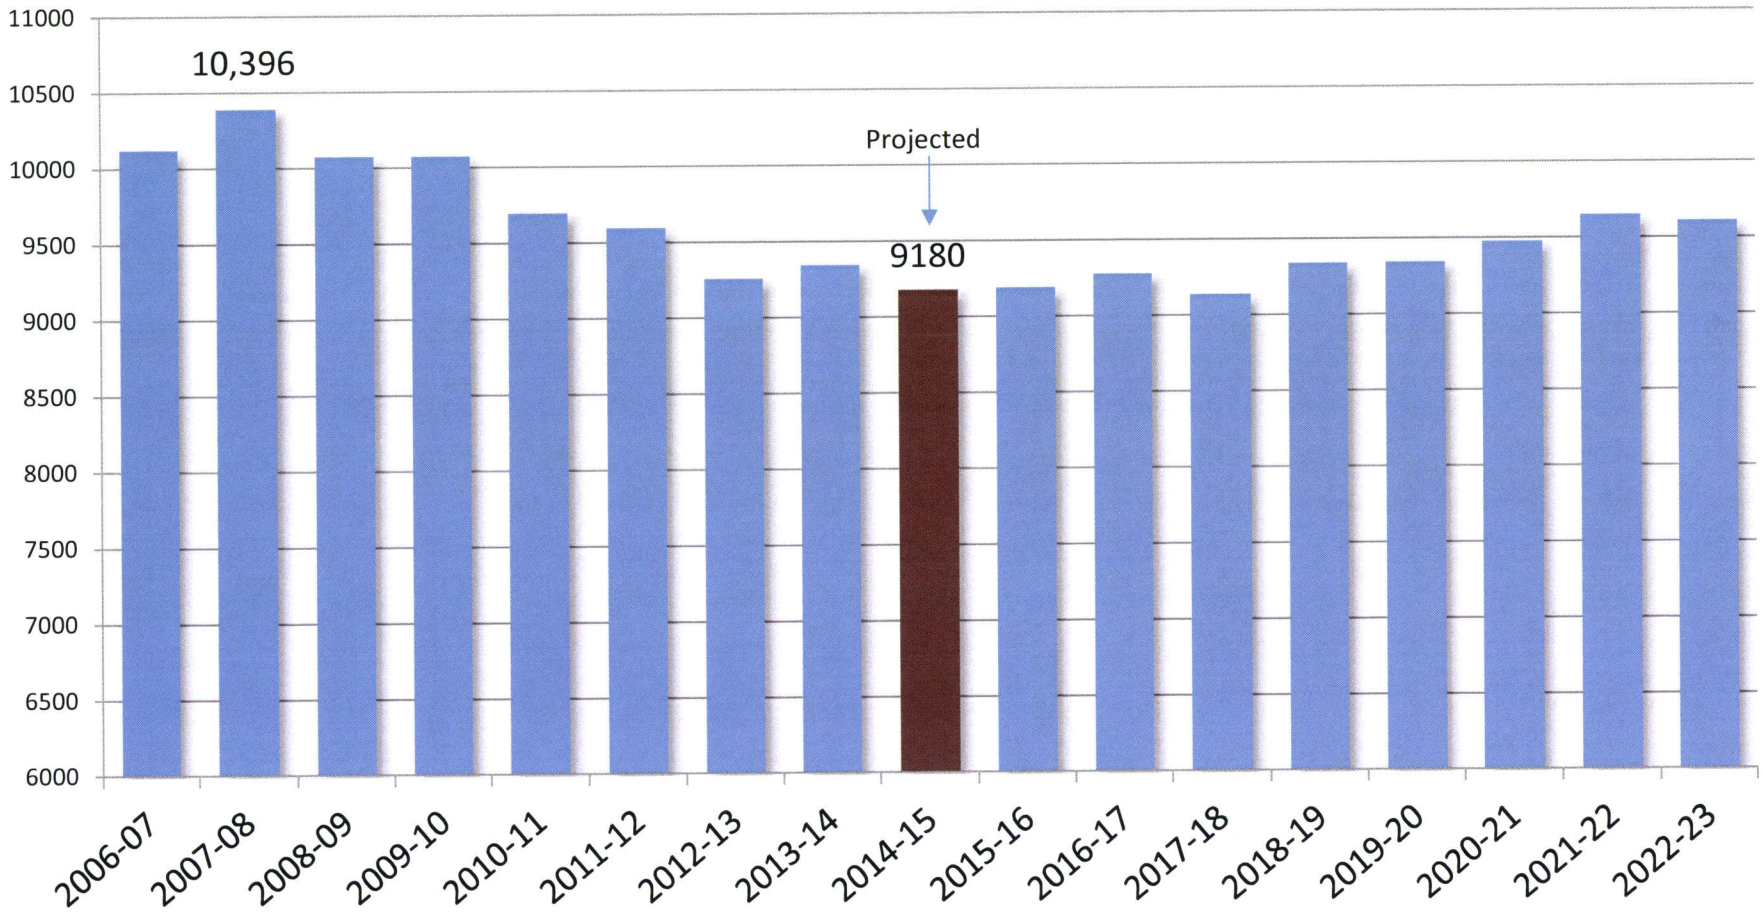
Headcount by Age

Unduplicated Headcount, Fall Census, (no CC's)



Montana Public High School Graduates

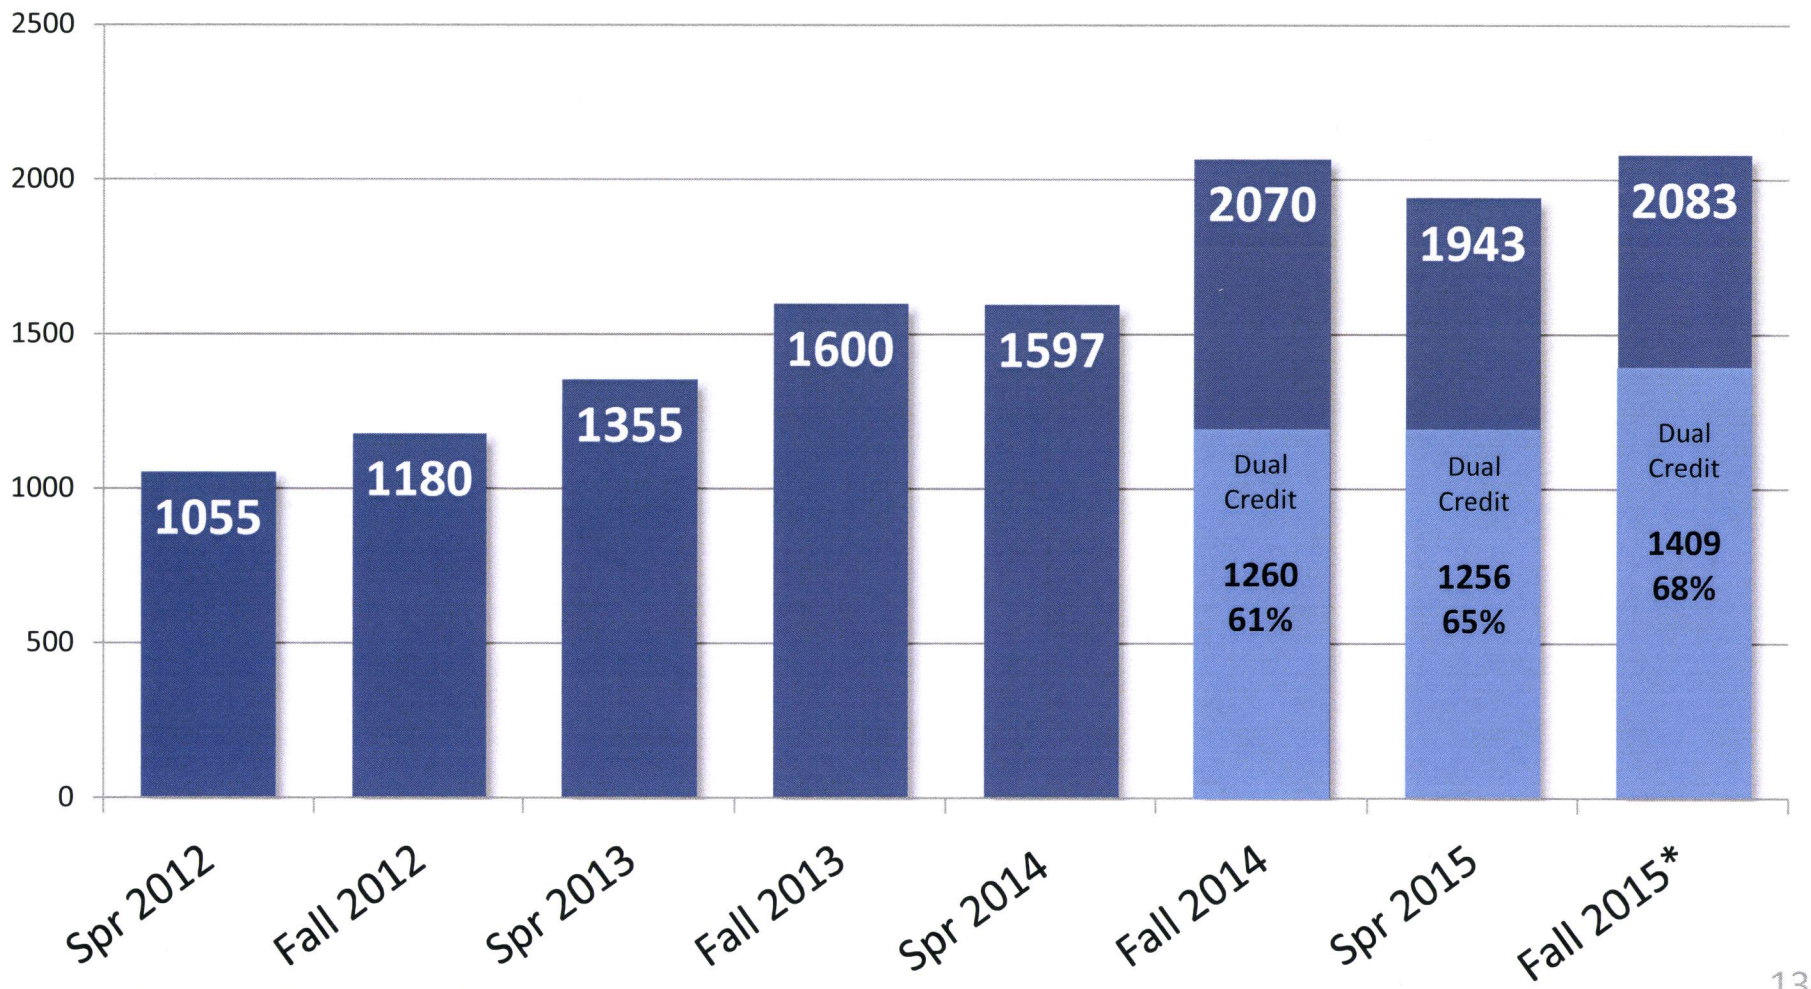
source: NCES, Projections of Education Statistics to 2022



Montana, as well as the entire nation, will experience a modest decline in the production of high school graduates due to a reduction in births in the wake of the Baby Boom Echo (WICHE). Beginning in 1991 the number of live births in the US declined slightly and remained lower for about 10 to 12 years.

Dual Enrollment Headcount

Unduplicated count of high school students enrolled in at least one college course



*represents "census" not EOT count
