EXHIBIT 5
DATE 1.17.05
SB 198

As a Mother, I expected my children to be safe in school. As a teacher, I saw many students harassed because they were different - perhaps their hair was weird, perhaps they were ~~small for their age~~ - most any difference was an excuse for a larger person - or persons - to ~~be~~ take advantage. Right here in Helena, a high school girl was raped by ~~several~~ two members of the football team - Since the administrators couldn't stop hallway calling names - she was transferred to the other school - not the guys because ~~they were football players~~ of cross-town rivalry -

But not all bullying happens student to student.
