Acknowledgements

I am grateful for the help of many in this project. I am thankful for the diligent assistance of Steve and Pamela White and Ramona Linabary. The research could only be done with the cooperation of home education families throughout Montana. Catherine Elliott, a student at Western Baptist College (Salem, Oregon), was of valuable help with data entry. Special assistance was given by Dr. Gregory Cizek of the University of Toledo (Ohio), Dr. Kenneth L. Dick of Financial Systems/Management Information Systems (Omaha, Nebraska), Dr. Douglas Kelley of Arizona State University West (Phoenix, Arizona), Rick Medlin of Stetson University (DeLand, Florida), and Dr. Lawrence Williams of Oak Meadow School (Blacksburg, Virginia) in terms of reviewing the methodology and the preparation of this final report. My wife and children were especially loving and understanding, as they are frequently, during the final stages of this project; they are a rich blessing from the LORD. I am heartily appreciative of all these people. I am also thankful to the National Home Education Research Institute and all those who support the institute; they were an essential part of making this research possible. —B.D.R.

About the Author

Brian D. Ray holds an earned Ph.D. in science education from Oregon State University (Corvallis, Oregon), is an Associate Professor of science and education at Western Baptist College (Salem, Oregon), and is president of the National Home Education Research Institute (Salem, Oregon). He is also the founding (1985) editor of the quarterly, refereed, research journal, *Home School Researcher* (ISSN 1054-8033). Dr. Ray has conducted numerous studies and regularly publishes in scholarly journals and books, has presented numerous papers at the annual meetings of the American Educational Research Association, appears as an expert witness in court cases, testifies to legislatures, appears in the news media, and speaks at a number of public conferences on the topic of home education. He is considered a leading expert on home education.
