Mr. Chairman and members of the Education Committee,

My name is Hannah Estell and I am a homeschooled 8th grader from Moccasin, Montana.

I like being homeschooled, Because it gives me the opportunity to go places for instance Washington, DC. There I have visited the White House, Vietam War Memorial, the Capitol, the Washington Monument, and the Lincoln Memorial. I have also been to Fort McHenry in Baltimore, to Mount Rushmore, the Red wood Forest in California, and to Canada.

Therefore I would appriciate your opposition of bill SB 291. Because this would drastically effect the Home Educator. Thank-you so much for your time.

Hannah Estell
