SENATE EDUCATION
EXHIBIT NO. 10
DATE 2-16-05
BILL NO. SB-335

Amendment for SB 335

Amend Page 1 Line 29 following "employee." by
Inserting: "State property for the purpose of this part does not include vocational institutions or institutions of higher education."

This amendment reinstates the language which exempts vo-techs and state universities from being included in the preference granted blind vendors. However, by reinstating this amendment the blind vendor program is not precluded from bidding on, winning and administering vending contracts on universities or other institutions of higher learning. This amendments was agreed to by the blind vendor program, the universities and the Board of Regents representatives.
