SB 330 - Parental Notification

Exhibit No. 5
Date 2-2-05
Bill No. SB 330

Good Morning Chairman Wheat and Members of the Committee

For the record I'm Rachel Roberts representing the Montana Family Foundation.

When a minor is faced with a decision so life-altering, children need the guidance of their parents. Parental rights should not be underestimated, especially denied.

According to the Family Research Council, over 70% of the American people agree that parents should be involved in a minors decision.

Please support SB 330.
