COMMENTS:

I hope that you will uphold my lawful freedom of speech. Freedom of Speech, guaranteed to us by the 1st ammendment of our Constitution, is necessary on issues that are disagreed upon. If everyone agreed on a subject we wouldn't need this free speech protection. Especially in an instanse where a morally questionable practise is happening people should retain the right (of their free speech) to stand up for their concerns and convictions. HB 324 is an unfair and undue disregard of my own and others free speech rights. Therefore, I urge you to please oppose HB 324. Thank you.
