FR: ETIC staff

RE: One-Call Draft Report

At the May meeting, ETIC members directed staff to put the draft report reviewing Montana's underground facility damage prevention program out for public comment. Attached is the public comment received on "Digging into One Call: A Review of Montana's Underground Facility Damage Prevention Program". The report was out for public comment for the month of June.

A request for comment was posted on the ETIC Listserv and notice was also sent out on Newslinks. The ETIC received limited public comment. The comments received are attached.

Additional comment may come in after the mailing deadline. Staff will include any additional comments received in your July meeting folders.

Subject: one call

The current one call system works well and should not be tampered with, as government has a way of making things like this worse. Please, it is not broke do not try to fix it. You will only make it a disaster.

Subject: One-call

Sonja,

My question is have their been incidences because people haven't called?

Robert E. Solum
