Febuary 16, 2007

Senate Bill 475

Concerning qualified, certified scaffold builder's; is very important, to not just the type of performance you'll receive, yet the contractor's safety record. The safety of completing a job with no recordable injury's, not just for safety records, for the greatest benefit being, every man or woman working on a jobsite leaves as they came; returning home each night safely. Emplementing the new standard, of every scaffold builder being qualified and certified, benefits all who are involved. The contractors, the safety records, the insurance costs ect. Benefiting the work place to having workers perform safely more effective and safe jobsite's.
