To Whom It May Concern:

This letter is being sent requesting that the HOUSE EDUCATION COMMITTEE vote in favor of Bill HB465 today. We also ask that this email be made public record.

We are parents of 3 and grandparents of 5 and have experienced and witnessed first hand the physical, neurological and medical negative effects of vaccinations on our children and grandchildren. The negative effects have been skin diseases, asthma, ADD, ADHD just to name a few. In some respects we have luckier than most THUS FAR and by that we mean we don't even know what may pop up in years to come. We know of and have known families that have lost babies to SIDS, have children who are autistic, violent, etc. Had we known years ago what we know now we would have never subjected our dear family to these potentially deadly injections. We shocked to this day that doctors and nurses take an oath of DO NO HARM but yet many of them do not take the time to find out what harm they are actually doing by supporting mandated vaccinations.

As far as we know a religious waiver is a GIVEN for WE THE PEOPLE by OUR CONSTITUTION. Again, we ask that you vote in favor of Bill HB465 today.

Respectfully,

Rocky & Laura Sealy-Larocco
