Ladies and Gentlemen

Having been a recipient of the LIEAP program, I am grateful.
For the past five years being qualified for the program has helped me not only financially, but also I have been able to stay warm and not worry about frozen pipes. Another big asset that goes along with LIEAP, is the weatherization that I have recived for the home that I rent.
To the people that donate extra funds for these programs Thank You from the heart.

God Bless You All
