BUSINESS, LABOR & ECONOMIC AFFA
EXHIBIT No. 10
DATE 1-23-07
BILL No. SB 204

On 12-20-06 I was rear ended by another driver. He was cited for following to close. On 1-21-06 Collision Pro called and said they had a apparent set up for my truck. Hartford Insurance had called them to set up a appointment. I was in the Hospital - my wife told them we were taking it to Jamie's (now called Capital Collision Center. I called Hartford and told them where I was taking it and they told me they had to send a adjuster out before I could take it anywhere. In the meantime I got a estimate from Capital Collision. I had to wait until 12-27-06 for the adjuster and he tried to steer me to Collision Pro. I feel because of when my truck was filed in the crash I had so many problems getting my truck fixed right. First they only wanted

to replace one shock because that was all that was damaged. My truck has 87,000 miles on it. The GM dealer said you don't replace just one new one with the old one. I have a letter from Grimes Motors stating this. Also no of my mud flaps was damaged and they only allow for 1 mud flap. Anyone know you buy mud flaps in sets. My truck had over $4000 worth of damage and Hartford Insurance was arguing over $1000.00 worth of damage. I feel I was treated very unfairly because I didn't take my truck to the repair shop of their choice
