COMMENTS:

We are in support of this bill due to the fact it will provide better services to our children in foster care. Training to Social Workers & foster parents is important to help build our families.
County & State courts have historically ignored the Indian Child Welfare Act (ICWA). Building relations with Departmental people will only better serve our children.

COMMENTS:

HB214 - State General Fund - Tribes are limited to the amount (AP) that is currently in the IV-E Tribal contract & that we as the Tribes are not asking for an increase within our IV-E contracts & are only requesting that we have equal access to better serve our children. This Bill would allow Tribes to access GF - since this is not part of the IV-E Tribal contracts we do not have access to better serve our children that are in the Foster Care System.

COMMENTS:

We are asking for "Equal access" to the General Fund. We are not asking for any additional funding only to have equal access when our foster children are transferring jurisdiction from State to Tribal Court.
