(2.) OVER → side 2 note

1-25: DNA being absolutely consistent & statisical, must be a communications phenomena by other than human intelligences in the universe eons before humans, the 1000's:1 majority in the universe that 'invented' our biologies, & Disaster Pattern Analysis also by those (or some of) intelligences proves Apolytic Ultimatums by those & of disorderly comet energies, necessitating multiple progressive reforms. (Volitional Equinoxes also by those entities).
