# Montana Prescription Drug Registry (MPDR)

- The 2011 Montana Legislature passed HB83 which authorized the Board of Pharmacy to establish and maintain a prescription drug registry program to collect data on controlled substances that are dispensed to Montana residents
- Allows authorized health care providers to review a patient's prescription history for controlled substances and use that information as a tool to improve patient safety and enhance the quality of patient care when making health care decisions
- MPDR information can also be a tool to look for indicators of potential drug misuse, abuse, diversion and/or doctor shopping
- Funded through federal grant support from the Montana Board of Crime Control and \$15 fee collection to Montana licensees

# Prescription Data

- March 2012 pharmacies began reporting data to the registry
- November 2012 registered users began searching the online registry
- The program requires licensed pharmacies to report controlled substance prescription data to the MPDR on a weekly basis
- Some pharmacies submit data on a daily basis
- Reported data is automatically uploaded into the registry and generally searchable that day
- Indian Health Services and some Tribal Health agencies are voluntarily reporting to the MPDR

# Authorized Users

- Authorized users with direct online access to the MPDR:
  - Physicians and other health care professionals with prescriptive authority for controlled substances
  - Pharmacists
  - Designated representatives from Medicaid, Tribal Health, Indian Health, and Veterans Affairs
  - Board of Pharmacy authorized staff for administrative purposes
- Access requires authorized users to complete education and the online registration process
- Online access is at [www.mpdr.mt.gov](http://www.mpdr.mt.gov)
- Individuals can request a copy of their own prescription history as it appears in the MPDR
- State licensing boards and law enforcement are not authorized for online access, but may request MPDR information through an investigative subpoena

To search for prescription information, enter the following search criteria.

**i** NOTE: You will be logged out of the MPDR after 5 minutes of inactivity.

SEARCH TIPS: If you can't find your patient, try entering fewer search parameters. For example, try entering just the last name and first initial or the last name and birth date or simply last name. Note that your patient may appear under multiple entries; for example *John Doe*, *Johnny Doe* and *John Q Doe*. You will need to review all entries for your patient in order to see their full prescribing history. Click [How Do I](#) above for more tips on using this registry.

# MPDR Statistics as of October 2013 (1 of 3)

- 763 pharmacies are submitting prescription data to the MPDR, including some IHS facilities
- Over 3.8 million prescriptions in the database
- Over 543,000 patients in the database
- 1,904 users are registered to search prescription history
- Users have conducted over 74,000 patient history searches since the program started
- MPDR staff have responded to 155 subpoenas from law enforcement personnel

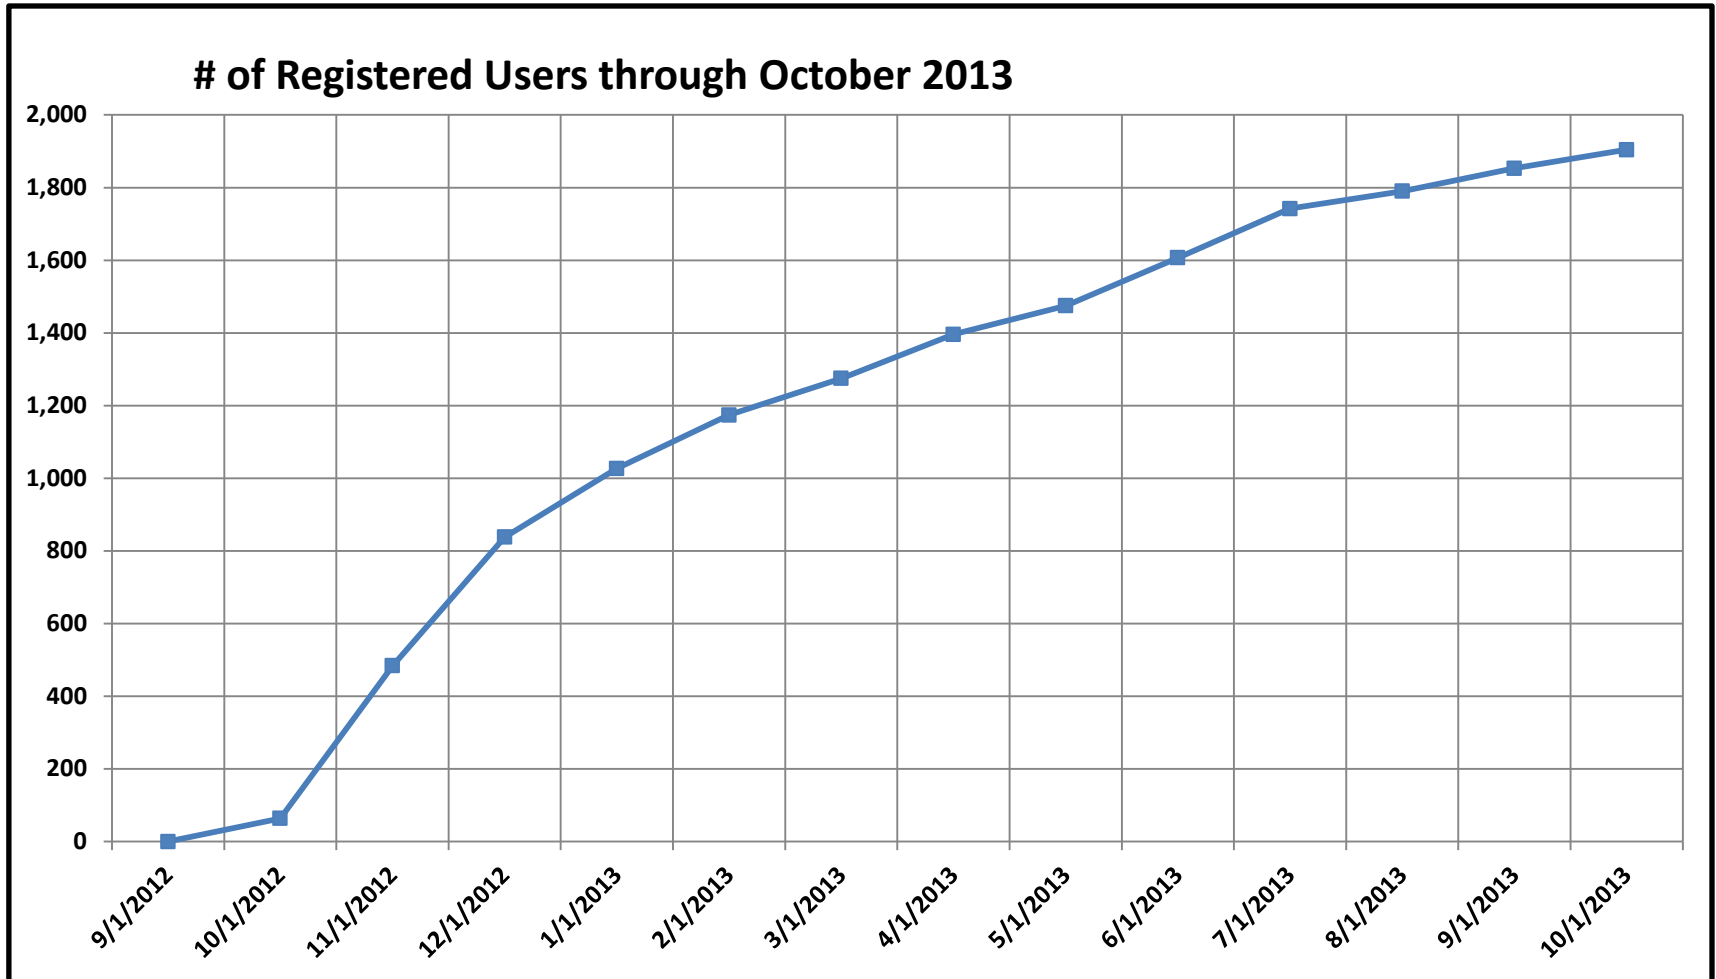

# MPDR Statistics as of October 2013 (2 of 3)

- 20.8% of 9,156 eligible health care providers have registered to search the MPDR

# MPDR Statistics as of October 2013 (3 of 3)

# Future Enhancements

The following future enhancements are priorities to improve functionality and efficiency of the MPDR program:

- Allow registered users to delegate MPDR access to authorized staff member(s)
- Share MPDR data with other states and give Montana providers access to other states' drug registry information – interstate data sharing
- Create administrative reports that include utilization statistics and pharmacy compliance auditing
- Develop unsolicited reports based on a defined threshold for potentially questionable prescription history; send reports from the Board to prescribers and pharmacies involved

# Next Steps

- Continue efforts to attain program goal of maximizing patient safety
- Continue and increase MPDR education and awareness activities, including collaboration with other stakeholders
- Continue development of online program enhancements through work with Montana Interactive
- Be a resource for the Committee on SJR 20 and other areas of interest
- Discuss and gather input on potential legislative revisions and recommendations
  - Report back to Committee in 2014
