SB 436

3-26-09 Chairman Van Dyke and House Fish Wildlife and Parks Members,

Let it be known that Senator Gallus has been a staunch supporter for the hunters and fisherman of Montana. Since my association with him for the last 10 years, he has always put the sportsman first with his decisions on legislation affecting our issues. However due to the controversial issues surrounding Fish and Game, we don't always agree, In respect to SB 436, this is an example of one

of those issues. Even though we don't agree on SB436, we know this legislation does not diminish Senator Gallus's support for Montana's sportsman.
