Gallatin County Campaign for Liberty is a grass-roots organization that promotes the cause of liberty, individual responsibility, restoring limited, constitutional and transparent government, and individual property rights in our county, state, and nation.

"Whenever the people are well informed, they can be trusted with their own government; that whenever things get so far wrong as to attract their notice, they may be relied on to set them to rights."

-Thomas Jefferson

We are a group of individuals who have different backgrounds, faiths, and experiences. We find that we are bound together by our love of truth, freedom, and country. Therefore, we commit to sacrifice our time, money, and lives for these very things that have brought us together.

The current state of affairs in our Republic is a result of a history replete with elected officials ignoring their oath to protect and defend the Constitution. This has led to violations of liberties in all areas of our lives. The nation has been drawn into unlawful wars, our personal property is no longer protected from confiscation without due process of law, and our hard earned money is taken by the cruelest tax of all -inflation- which is taxation without representation. In addition, the right to keep and bear arms is being infringed and the right to peacefully assemble and to protest against the government is under assault.

Therefore:

- We will establish an educational campaign to teach constitutional principles to the citizens of Gallatin County, Montana
- We pledge to work through the political parties in the area, encouraging the election of precinct committee people and individuals in leadership positions within those political parties who represent the principles of the Declaration of Independence and the Constitution of the United States.
- We will promote legislative and state-wide candidates who will follow constitutional principles, both from within and outside our group, and assist them with their campaigns.
