My name is Kayla Hooey, I own a pit bull, my aunt raises pits. It is the owners responsibity, I can't understand why the fault is placed in the dogs hands. It is not the dogs fault. Any dog can be aggressive. Pit Bulls are not the only ones. Pits are people pleasers. If their owners want them to fight they will to please their owner. We need to make stronger laws against animal neglect & cruelty. ~~[illegible]~~ Pits actually score higher on temperment tests than most dogs.

My notes for my statement are on front.
