Our only lobbyist is Bob Gilbert.

About 5000-6000 salvage vehicles sold in Montana annually

Montana salvage yards and used car dealers are required to be licensed. There are no requirements for the out of state buyers. 40% of the vehicles sold in Montana go to out of state buyers

The annual license fee is $500.00, but there is an offsetting tax credit for those who pay Montana income tax.

Consumer protection

Reduces vehicles purchased just for their titles.

Opposition comes from the auto auctions and insurance companies. Just follow the money

This is probably a wash for insurance companies.

Please send this out of committee with a do pass recommendation.

Thank you for giving this some serious thought.
