Dear Legislators,

The Gifted and Talented program is important to me becase without it I wouldn't Know how to make a power point, I'd still be afraid to talk on stage, and Some great friends I'd never have met. But G.T. is worth more then that, it is to teach the importance of everything even yourself. G.T. is passing a test to skip a day of school each week to learn the magic of the Universe and everything inside. I would be heartbroken if our future citizens could never learn anything I've learned in G.T..

From,
Celia Quintana, age 9
