Dear Sirs!

I'm writing in regards to the Legislator wanting to cut Medicaid and personal assistance programs, for elderly-low income and handicapped people. Havent you done enough cutting programs This is not right I feel it will bring quite a hardship on us all. There is extra money to give $700 to help Pay insurance for some people while others do without! Is this fair? No.

I am handicaped along with other people in Mont, and I know we are all thankful for the help we have gotten. I dont think all of us handicaped, elderly & low income can get by with any more cuts in program We are already at poverty level or below
