March 3, 2011

To Whom it may Concern,

The United States Government sent our young men & boys to fight for this country with the understanding that they would be taken care of upon their return. Those who were fortunate to live, to make it home, were almost the lucky ones. Some were wounded; some were mangled; some were missing body parts. All of them, however, returned with emotional scars.

Can you even imagine, in their failing health over the years, what these soldiers have had to endure? The Montana State Veterans Nursing home is their home! It would be an immortal act to jeopardize the one promise our Country can possibly keep for these men. Our veterans sacrificed their lives + their futures for our freedom. Preserving the home of our present and future veterans is the least this Country can do for them!

Some of our representatives and Senators are Veterans. One day, they too,

may find the need for a home where they can go to receive proper care and feel safe & secure.

Please take all of this into serious consideration before you make any decision when voting on House Bill 2 - the "Appropriations Bill".

Respectfully Yours,

Laura Lynn Hochanour

THE VETERAN

It is the Veteran, not the preacher, who has given us freedom of religion.

It is the Veteran, not the reporter, who has given us freedom of the press.

It is the Veteran, not the poet, who has given us freedom of speech.

It is the Veteran, not the campus organizer, who has given us freedom to assemble.

It is the Veteran, not the lawyer, who has give us a right for a fair trial.

It is the Veteran, not the politician, who has given us the right to vote.

It is the Veteran who salutes the flag, and it is the Veteran who serves under the flag.

For those who are gone, grant them eternal rest! For those who will someday follow, also grant them eternal rest. Let perpetual light shine upon all of them, now and forever.
