Attention: Senate Judiciary Committee
Re: HB 456

Please oppose HB 456. I believe sex education in schools are very important. Teens are going to have sex with or without sex education. Knowing that, the most important thing we can do is to have proper education for those teens. Giving a wide variety of options is essential to keep teens safe. The passing of the bill would make this vital information harder to get. If teens don't know about STD's or STI's and they contract one, they won't know how to get it treated or who to go to. The same goes for unplanned pregnancies. I hope this is persuasive enough to get you to oppose HB 456. Thank you so much for your time. Have a great day.

Sincerely,

Cassie Weideman
