Attention: Senate Judiciary Committee

Re: HB 456

I urge you to please oppose HB 456. During junior high and high school I had age-appropriate sex education and it has allowed me to make healthy decisions regarding my body and sexuality. Planned Parenthood educators are experts both in human sexuality and educating teenagers. Abortion services aren't part of their curriculum and Planned Parenthood shouldn't be ~~penalized~~ banned from schools because of their abortion services (97% of Planned Parenthood's service are non abortion related).

I care about the health of Montanans and hope you do as well. Vote no on HB 456.

Thank you for time.

Sincerely,

Emerald LaFortune
