This issue is about TRUTH.

The gov't line since the early 1900's has been nothing but lies to cause hysteria and obtain monopolies - oil, tobacco, alcohol, trees for paper, fuel & unnatural products (from toxic beginnings) Synthetics - they used lies & hysteria to obliterate competition from cannabis.

- As the reps of the people - it is your job to set up a committee to regulate and tax for the benefit to the State as well as a majority of your constituents.

We voted you in, just as we voted for legal cannabis - were we wrong in voting for you? Please do your job as Montanans and Americans.

DO NOT REPEAL HB161
