AMERICANS FOR PROSPERITY
MONTANA

SENATE EDUCATION
EXHIBIT NO. 3
DATE 1/28/13
BILL NO. SB 81

Petition in Support of School Choice

School choice promotes competition in education and has been shown to improve the quality of education in both private and public schools. A quality education is also necessary for a strong economy. Vouchers help low and middle income families take advantage of quality schools, while higher income families can afford it. I support SB 81 because it will help non-profit organizations provide scholarships to students to attend a school of the parent's choice, it will enable grants to public schools to add educational opportunities to their curriculum and, or enable grants to Montana colleges for vocational technical programs. I also support HB 213 because it supports school choice by providing a modest $550 tax credit for students who enroll in a private school.
