4-8-15

My Daughter has Autism on the Severe end of the spectrum

She has problems Learning, Talking, getting Along w/others and of own self care.

She's Very aggressive against others

She's Self injurious Injuries By Biting her Self her hands have been Bitten to where her Scars are open. She Bangs her head MDC is Concrete walls + floors + pinching Skin.

My Daughter in a theraputic foster care She has been in group home and MDC for the last 5 months

MDC has failed to meet her needs in keeping her Safe + others from Being Attacked Shes had 6 Reported aggressive acts against others that Should have Been Controlled

I Visited Last night + this morning Shesseened Drugged heavily She had Blank stares & Was Drooling

MDC ~~has~~ not have an effective Behavioral plan for my Daughter to stop her. they dont a ABA (one of the proven methods of teaching people to Autism.

I see No Evedents they have help her Ability to use language + Self care.
