To Whom it may concern, 1-19-2015

My son and I are clients of Yellowstone Boys & Girls Ranch. We have a therapist that helps us with both Family therapy and also does one on one with my son. We have a case manager that keeps track of what we need and lines up services that meet our needs. We have a home support specialist that comes to our apt once a week to help my son and I with everyday living tasks. My son did not come with a instruction book, so Then there is Jay, he is my son's mentor. Baily loves hanging out with his mentor, they have a good bond.

We are thankful for all the help we get from Yellowstone Boys & Girls Ranch. I am a single parent and am learning how to handle the challenges that come along with that. The People at YBGR have been a great help to us through this process. I would have trouble doing this all alone.

Thankyou, Richard Goff 1-19-2015
