COMMENTS: HB 425

My Two Grand Kids were subject to abortion threat & are now 22 years old + 21 years old. The one Grandson now has two daughters. What would it be like if I could not see their (her) smile. I am very happy to be alive + to have seen her face. She is now 3 months old. I would tell you also that I helped cut out a calf one time (dismembered), but that calf was dead. I can't imagine doing that to a baby growing in the womb. I would suggest also that the baby would be making noise, but unheard because of the fluid in the womb. Your vote for all will include supporting the personhood of the unborn. I wish that my tax dollars to not go to support planned parent hood. MK
