Speach

Hi evreybody, my name is Austin. And I live in darby. I think ten yr olds should be allowed to hunt: worterfowl, deer uplond game birds and turkey. I've been going hunting since I was three with my family. I think there are many more kids that would like to have this opportunity to hunt a few years younger than 12. I'm asking the senators to bring the age down to ten. I think it would be a good idea to let kids get outdoors insted of playing video games. thank you.
