

At Risk Students Fact Sheet

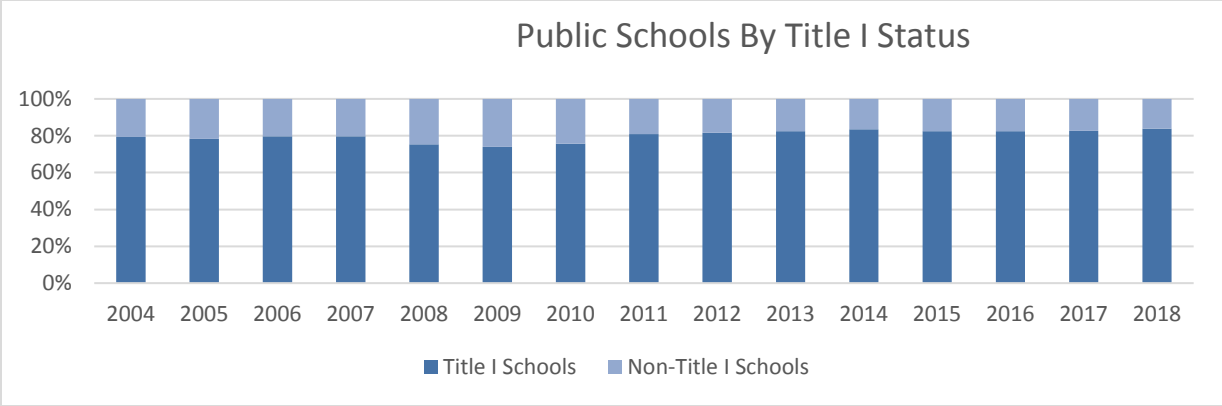

Overview

Montana's definition of a basic system of quality public elementary and secondary schools includes educational programs for at-risk students (20-9-309, MCA). State statute defines an at-risk student as a "student who is affected by environmental conditions that negatively impact the student's educational performance or threaten a student's likelihood of promotion or graduation" (20-1-101(4), MCA).

Beginning in FY 2007, the Montana Legislature provided \$5 million annually to local school districts for educational services for at-risk students (see Appendix 1). The at-risk payment is distributed in the same manner as federal Title I. If a district is not eligible for Title I funds, it does not receive an at-risk payment. The funding was provided for three years, but was not funded for FY 2009-10 and FY 2010-11. Funding was restored for FY 2011-12 and later. The law which establishes the at-risk student payment also requires the Office of Public Instruction to report to the governor and the Legislature on the change in status of standardized test scores, graduation rates, and dropout rates of at-risk students. (20-9-328, MCA) This fact sheet provides that status report.

Population data - 2017-18 school year

- 115,841 students, or 79% of the PK-12 public school population, were enrolled in a school that received federal Title I funding.
- The number of schools participating in the Title I program has remained stable from 2011 to 2018. Title I school participation decreased from 2007 to 2009.
- 84% of the public schools in Montana participated in Title I in the 2017-18 school year.

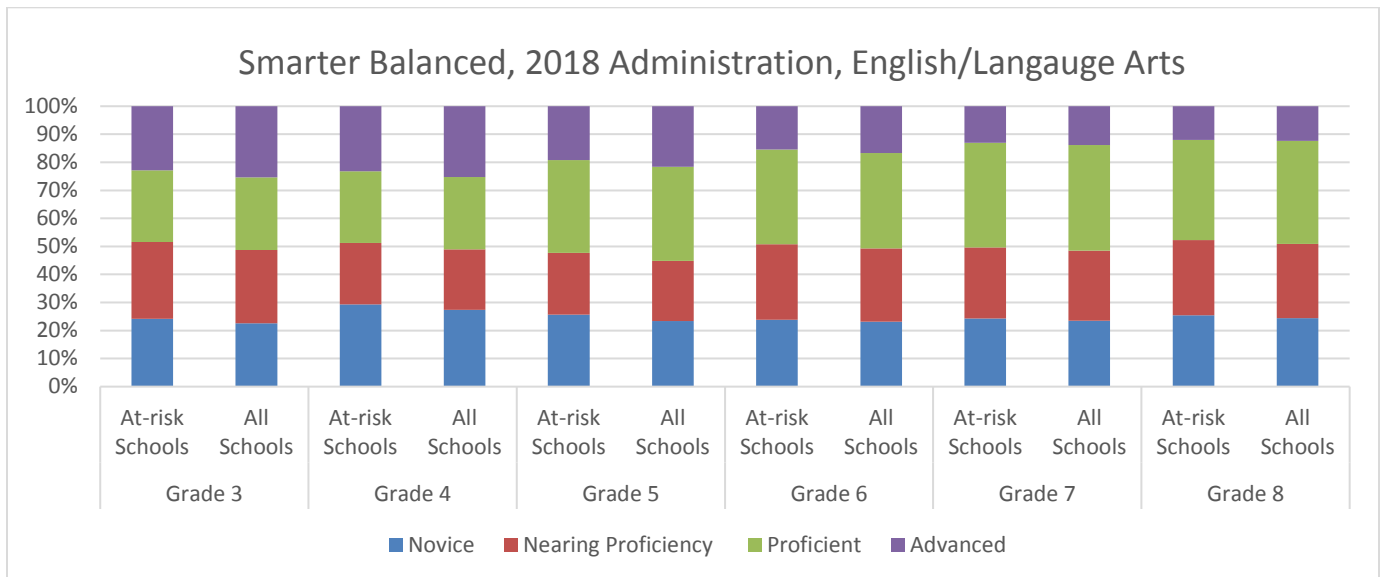

Assessment Data-2017-18 School Year

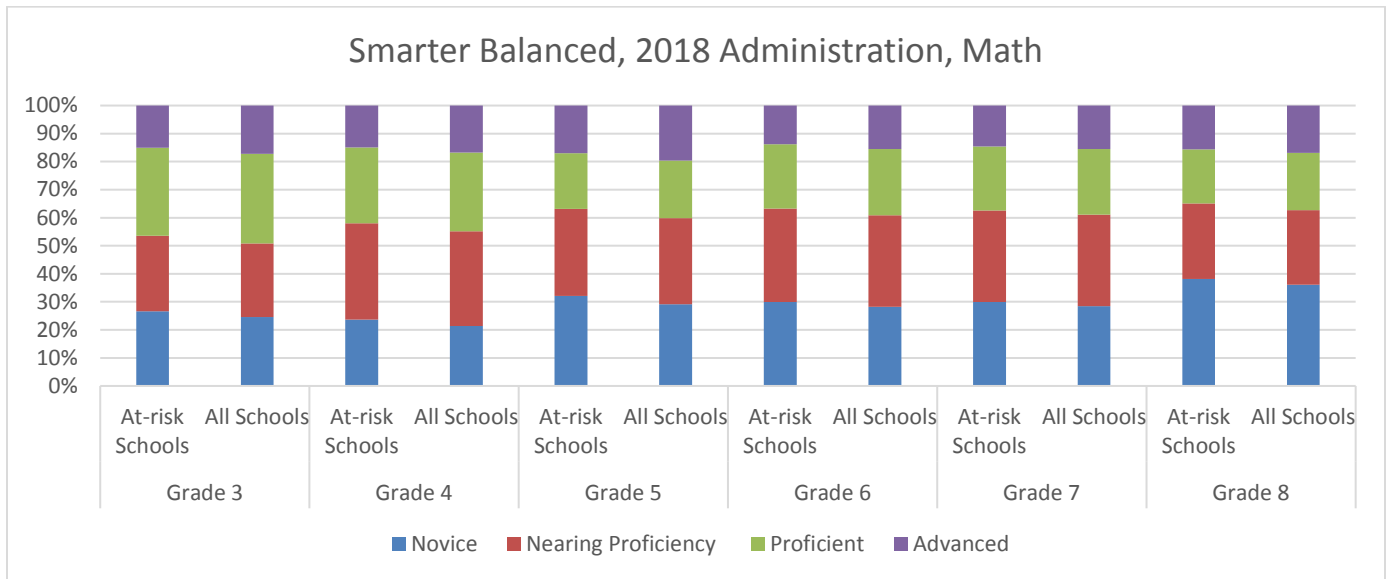

Testing data for elementary students in this report is from the 2017-18 Smarter Balanced assessment (SBAC) for math and English language arts (ELA), and the Criterion Referenced Test (CRT) for science. For the high school students in this report, testing data is from the statewide 11th grade administration of the ACT with writing college entrance test. OPI has been providing this statewide administration of the ACT since the 2012-13 school year. The “At Risk” student group (those students at schools with Title I programs) make up 79% of the elementary and middle school testing population and 78% of the high school testing population in 2018. Assessment data includes public school data only, and does not include the state-funded schools (the Montana School for the Deaf & Blind, or the Youth Corrections School at Pine Hills). Students taking the alternate assessments (CRT-ALT for science, MSAA for math and ELA) are not included in this analysis.

Smarter Balanced Assessment (SBAC)

This chart shows the percentages of students in each proficiency level scoring at the Novice, Nearing Proficiency, Proficient, and Advanced levels for the Smarter Balanced English/language arts (ELA) assessment for the 2017-18 school year. The data is organized by grade and proficiency level, with separate columns for Title I (At-risk) schools and for all tested schools. For all grades, the percentage of students scoring at the Novice level is slightly higher for Title I schools, and the percentage of students scoring at the Advanced Level is slightly lower for Title I schools. For grades 3-8, the overall increase is 1.5% more Novice students and 1.4% fewer Advanced students. The differences are largest at grades 3 and 4 and decrease as the grade increases.

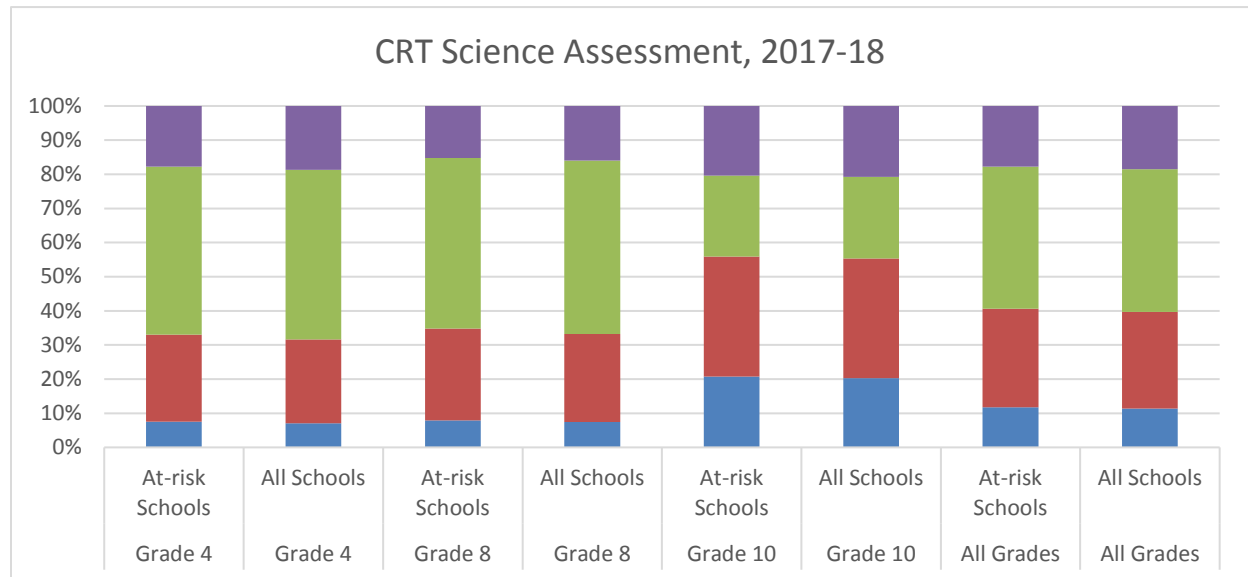

The chart below shows the percentages of students in each proficiency level scoring at the Novice, Nearing Proficiency, Proficient, and Advanced levels on the Smarter math assessment for the 2017-18 school year. The data is organized by grade and proficiency level, with separate columns for at risk schools and for all tested schools. For all grades there is a higher percentage of Novice students at the at-risk schools, and a lower percentage of students at the Advanced level for the at-risk schools; these gaps are in the 1%-3% range, and are highest in grades 4 and 5.

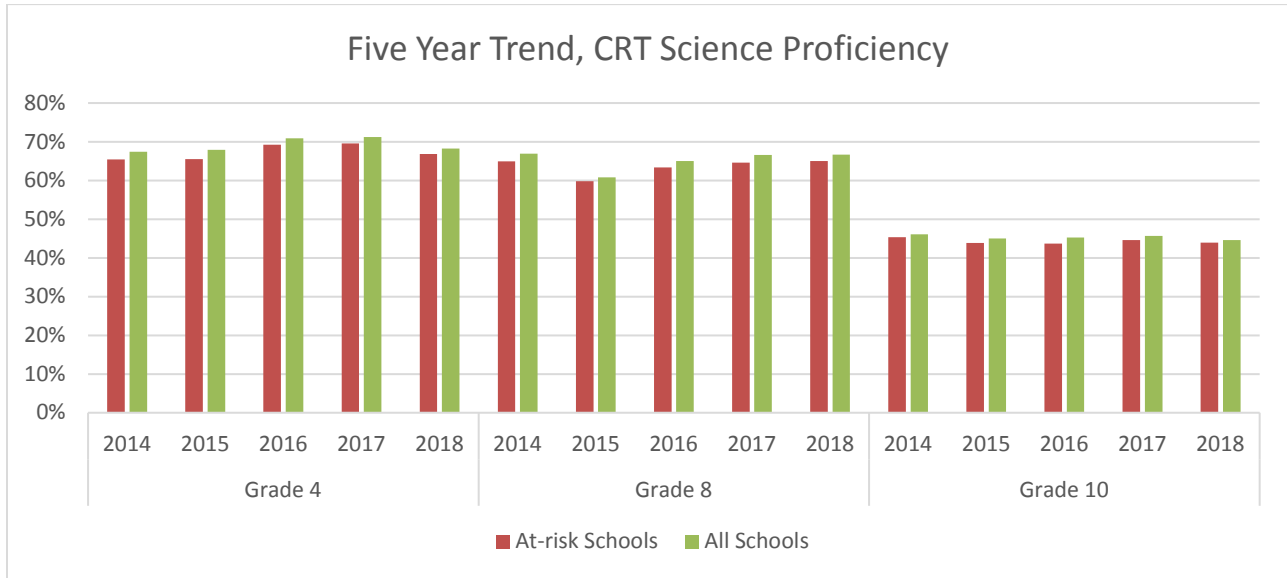

CRT-Science

The chart below shows the percentage of students achieving the Novice, Nearing Proficiency, Proficient, and Advanced proficiency levels for the 2015-16 Science CRT assessment. The data is organized by grade and proficiency level, and data is provided for Title I (at risk) schools and for all schools in Montana. Montana tests only grades 4, 8, and 10 for the Science CRT Assessment. Overall, the students at the at-risk schools score roughly 1% higher in the novice proficiency level, and roughly 1% lower in the Advanced proficiency level, for all grade levels. The distribution of proficiency data by grade (more than 65% proficient or advanced in grades 4 and 8, below 50% in grade 10) is consistent with previous CRT Science results.

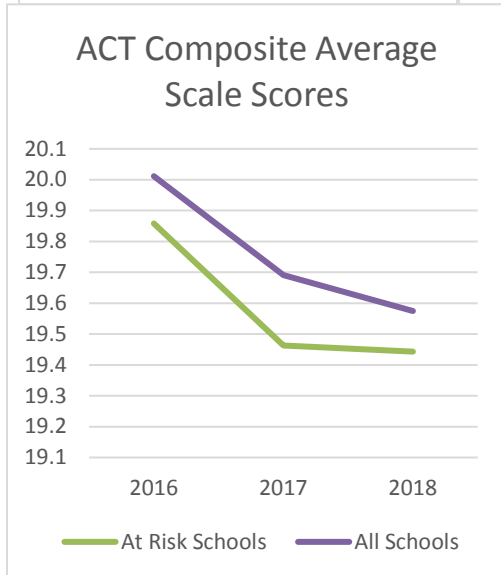

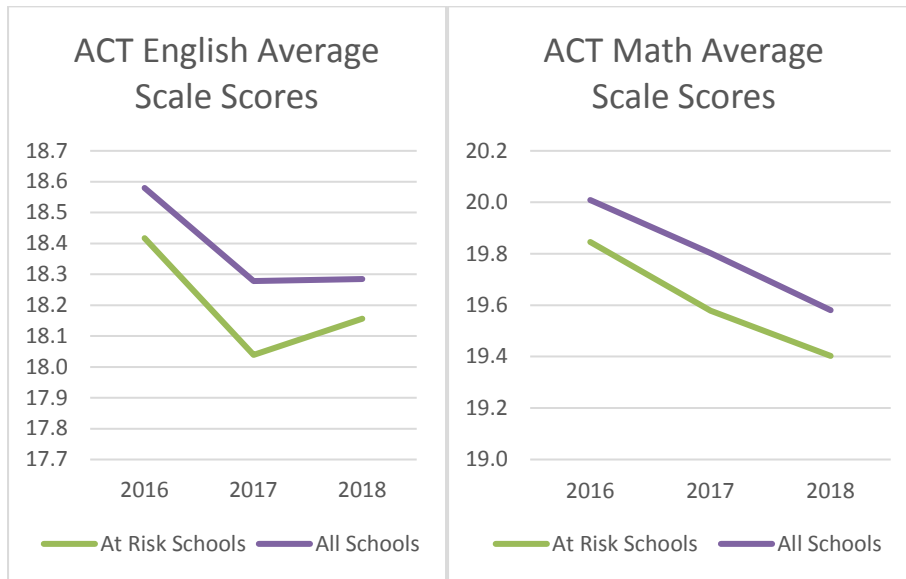

The chart below shows the percentage of students that scored Proficient or Advanced in the Science CRT Assessment for the last five years. Data are provided for each grade assessed, for each year of the assessment, and for both at-risk schools and for all schools in Montana. There is a consistent 1% difference between the at-risk schools and all schools for all grades, with the highest differences at grades 4 and 8 (2%). There was a decrease in the overall proficiency rate in Science in 2015, driven mostly by a decline in grade 8; this decline was seen in both at-risk schools and statewide. Since 2015, the proficiency rates for grade 8 have returned to 2014 levels.

ACT

The charts below show the average scale scores on the statewide administration of the ACT for the 2016, 2017, and 2018 school years. Charts for the math, English, and composite ACT scores are provided. Both the subject tests and the overall composite score show a difference of 0.1-0.3 points (in a range of 0 to 36) between the at-risk schools and all schools overall. All these scores are from the 11th grade statewide administration.

Graduation Rates

- The Four Year Adjusted Cohort Graduation rate was first calculated in the 2010-11 school year. This rate measures the “on-time” graduation of students, based on a student’s entry date into Montana high school. Starting at 82.1% (in 2010-11), the cohort graduation rate increased to 86.0% in 2014-15 for all public schools, and has stayed between 85.6% and 86.0% since the 2014-15 school year.
- The differences between the at-risk schools and all schools is relatively small, roughly 0.5% difference for the all student group between the at-risk schools and all schools.
- For the high school grades, at-risk schools have 74% to 78% of the students in public schools.
- In high school grades, at-risk schools have 88% to 89% of the American Indian student cohort.

Graduation Rates	2014-15	2015-16	2016-17
Four Year Cohort Grad Rate, All Schools	86.0%	85.6%	85.8%
Four Year Cohort Grad Rate, At-risk Schools	85.6%	85.1%	85.3%
American Indian Four Yr. Grad Rate, All Schools	66.7%	65.6%	69.1%
American Indian Four Yr. Grad Rate At-Risk Schools	66.9%	64.6%	68.9%

Dropout rates

- Dropout rates have decreased since the 2007-08 school year for all students, both at Title I schools and for the state.
- Differences in dropout rates between Title I/ At Risk schools and all schools has been very small (within 0.2%) since 2010-11, and the difference between the two school types for American Indian students only slightly larger (0.3%) .
- At-risk schools have 75-76% of the overall enrollment in public high schools, and 76-77% of the overall enrollment in grades 7 or 8. The corresponding percentages for American Indian students is 88-89% of the overall student enrollment in both high school and grades 7 or 8.
- Grade 7 and 8 dropout counts are very low statewide; less than 50 7th or 8th grade dropouts have been reported since 2008-09.

Dropout Rates, High School grades	2014-15	2015-16	2016-17
At-risk Schools	3.4%	3.5%	3.4%
All Schools	3.3%	3.3%	3.2%
American Indian students, At-risk Schools	9.7%	8.0%	8.6%
American Indian students, All Schools	9.4%	7.8%	8.4%

Dropout Rates, Grades 7 & 8	2014-15	2015-16	2016-17
At-risk Schools	0.2%	0.3%	0.3%
All Schools	0.2%	0.2%	0.3%
American Indian students, At-risk Schools	1.1%	1.3%	1.2%
American Indian students, All Schools	1.0%	1.4%	1.2%
