

2005 Montana Legislature
HOUSE BILL 484
Mobile Slaughter Facility

This letter is to express support for House Bill 484. Montana Buffalo Gals, Inc., supports the use of Mobile Slaughter Facilities.

Mobile Slaughter Facilities are a proven factor in helping meat producers lower costs and increase quality within the Bison Industry.

Bison are not easily transported to slaughter facilities. Therefore, both stress and damage to meat will decrease with the use of a Mobile Slaughter Facility. In other locations, several of these processing units have proven themselves very useful, convenient, and sanitary in facilitating meat production.

Please pass House Bill 484, to help small meat producers, such as ourselves, market a high quality product more easily. Thank you.

Christopher Sullivan / Pres.
