EXHIBIT 6
DATE 1-31-05
HB 447

Hello, I have been working in maintenance for the State for the past 15 plus years. It seems that everytime except once that there has been a percent raise. Only once did we get a one dollar raise for everyone. So it seems to me that the higher income employees always get a bigger raise and the difference between the upper pay scale and the lower one gets bigger and bigger. I would appreciate your support. Thank you

Subject: state pay raise

representative sinrud,

I am the union steward for afscme local 616 (with approximately 60 members). our local would rather support a set pay raise for all state employees (such as \$1 to everyone) then a percentage of each employees hourly wage. this may result in a few of our members getting less, but we feel it is more important to raise the lowest salaries as much as possible.
thank you for your work in this matter.

My name is Wayne Holmlund and I have been an employee of the State of Montana for 15 years. I work for the MDT.

I believe HB 268 would be better than HB 447 for the working people because it gives a dollar wage increase, not a percentage increase. A percentage increase helps the management and higher waged employees rather than the work force.

I would appreciate your vote in this direction.
