Insert: "NEW SECTION. **Section 7. Transfer of funds.** The department of fish, wildlife, and parks and the department of transportation are authorized to transfer either or both the appropriations and authority in [sections 4 through 6] among the necessary fund types for these projects."

Insert: "NEW SECTION. **Section 8. Planning and design.** (1) Subject to subsection (2), the department of administration may proceed with the planning and design of capital projects prior to the receipt of money from other funding sources. The department may use interaccount loans in accordance with 17-2-107 to pay planning and design costs incurred before the receipt of money from other funding sources.

(2) The department may not expend funds appropriated for statewide roof repair in [section 2] or under subsection (1) of this section until after the department has entered into a contract for roof repair at the Pine Hills school in Miles City."

Insert: "NEW SECTION. **Section 9. Capital projects -- contingent funds.** If a capital project is financed, in whole or in part, with appropriations contingent upon the receipt of other

funding sources, the department of administration may not let the project for bid until the agency has submitted a financial plan for approval by the director of the department of administration. A financial plan may not be approved by the director if:

(1) the level of funding provided under the financial plan deviates substantially from the funding level provided in [sections 2 through 6] for that project; or

(2) the scope of the project is substantially altered or revised from the preliminary plans presented for that project in the 2007 biennium long-range building program presented to the 59th legislature."

Insert: "NEW SECTION. **Section 10. Review by department of environmental quality.** The department of environmental quality shall review capital projects authorized in [sections 2 through 6] for potential inclusion in the state building energy conservation program under Title 90, chapter 4, part 6. When a review shows that a capital project will result in energy improvements, that project must be submitted to the energy conservation program for funding consideration. Funding provided under the energy conservation program guidelines must be used to offset or add to the authorized funding for the project, and the amount will be dependent on the annual utility savings resulting from the facility improvement. Agencies must be notified of potential funding after the review."

Insert: "NEW SECTION. **Section 11. University buildings -- operation and maintenance.** (1) The 59th legislature finds that the operation and maintenance of portions of new building space that supports academic missions of the university system should be funded with current unrestricted university funds. The funding of current unrestricted university funds is shared between state general fund, tuition, and other minor sources.

(2) The office of budget and program planning, the architecture and engineering division of the department of administration, the legislative fiscal division, and the Montana university system are directed to come to an agreement and to recommend to the 60th legislature the portions of new building space that support academic missions of the university system and funding allocations between the general fund and tuition. If the legislative audit division conducts a performance audit of the university system building program, then the office of budget and program planning, the architecture and engineering division of the department of administration, the legislative fiscal division, and the Montana university system shall take the results of the audit into consideration in making a recommendation.

(3) If the university system chooses to build nonacademic buildings, the operation and maintenance costs for the buildings must be funded from nonstate and nontuition sources."

Insert: "NEW SECTION. **Section 12. Legislative consent.** The appropriations authorized in [sections 1 through 6] constitute legislative consent for the capital projects contained in

[sections 1 through 6] within the meaning of 18-2-102."

Insert: "Section 13. Section 87-1-209, MCA, is amended to read:

"87-1-209. Acquisition and sale of lands or waters. (1) The department, with the consent of the commission and, in the case of land acquisition involving more than 100 acres or $100,000 in value, the approval of the board of land commissioners, may acquire by purchase, lease, agreement, gift, or devise and may acquire easements upon lands or waters for the purposes listed in this subsection. The department may develop, operate, and maintain acquired lands or waters:

(a) for fish hatcheries or nursery ponds;

(b) as lands or water suitable for game, bird, fish, or fur-bearing animal restoration, propagation, or protection;

(c) for public hunting, fishing, or trapping areas;

(d) to capture, propagate, transport, buy, sell, or exchange any game, birds, fish, fish eggs, or fur-bearing animals needed for propagation or stocking purposes or to exercise control measures of undesirable species;

(e) for state parks and outdoor recreation;

(f) to extend and consolidate by exchange, lands or waters suitable for these purposes.

(2) The department, with the consent of the commission, may acquire by condemnation, as provided in Title 70, chapter 30, lands or structures for the preservation of historical or archaeological sites that are threatened with destruction or alteration.

(3) (a) ~~The~~ Subject to [section 2(3)], the department, with the consent of the commission, may dispose of lands and water rights acquired by it on those terms after public notice as required by subsection (3)(b) of this section, without regard to other laws that provide for sale or disposal of state lands and with or without reservation, as it considers necessary and advisable. The department, with the consent of the commission, may convey department lands and water rights for full market value to other governmental entities without regard to the requirements of subsection (3)(b) or (3)(c) if the land is less than 10 acres or if the full market value of the interest to be conveyed is less than $20,000. When the department conveys land or water rights to another governmental entity pursuant to this subsection, the department, in addition to giving notice pursuant to subsection (3)(b), shall give notice by mail to the landowners whose property adjoins the department property being conveyed.

(b) ~~Notice~~ Subject to [section 2(3)], notice of sale describing the lands or waters to be disposed of must be published once a week for 3 successive weeks in a newspaper with general circulation printed and published in the county where the lands or waters are situated or, if a newspaper is not published in that county, then in any newspaper with general circulation in that county.

(c) The notice must advertise for cash bids to be presented to the director within 60 days from the date of the first

publication. Each bid must be accompanied by a cashier's check or cash deposit in an amount equal to 10% of the amount bid. The highest bid must be accepted upon payment of the balance due within 10 days after mailing notice by certified mail to the highest bidder. If that bidder defaults on payment of the balance due, then the next highest bidders must be similarly notified in succession until a sale is completed. Deposits must be returned to the unsuccessful bidders except bidders defaulting after notification.

(d) The department shall reserve the right to reject any bids that do not equal or exceed the full market value of the lands and waters as determined by the department. If the department does not receive a bid that equals or exceeds fair market value, it may then sell the lands or water rights at private sale. The price accepted on any private sale must exceed the highest bid rejected in the bid process.

(4) The department shall convey lands and water rights without covenants of warranty by deed executed by the governor or in the governor's absence or disability by the lieutenant governor, attested by the secretary of state and further countersigned by the director.

(5) The department, with the consent of the commission, is authorized to utilize the installment contract method to facilitate the acquisition of wildlife management areas in which game and nongame fur-bearing animals and game and nongame birds may breed and replenish and areas that provide access to fishing sites for the public. The total cost of installment contracts may not exceed the cost of purchases authorized by the department and appropriated by the legislature.

(6) The department is authorized to enter into leases of land under its control in exchange for services to be provided by the lessee on the leased land.""

Insert: "Section 14. Section 87-1-601, MCA, is amended to read:

"87-1-601. Use of fish and game money. (1) (a) Except as provided in subsections (7) and (9), all money collected or received from the sale of hunting and fishing licenses or permits, from the sale of seized game or hides, from damages collected for violations of the fish and game laws of this state, or from appropriations or received by the department from any other state source must be turned over to the department of revenue and placed in the state special revenue fund to the credit of the department.

(b) Any money received from federal sources must be deposited in the federal special revenue fund to the credit of the department.

(c) All interest earned on money from the following sources must be placed in the state special revenue fund to the credit of the department:

(i) the general license account;

(ii) the license drawing account;

(iii) accounts established to administer the provisions of

87-1-246, 87-1-258, 87-1-605, 87-2-411, 87-2-722, and 87-2-724; and

(iv) money received from the sale of any other hunting and fishing license.

(2) Except as provided in 87-2-411, the money described in subsection (1) must be exclusively set apart and made available for the payment of all salaries, per diem, fees, expenses, and expenditures authorized to be made by the department under the terms of this title. The money described in subsection (1) must be spent for those purposes by the department, subject to appropriation by the legislature.

(3) Any reference to the fish and game fund in this code means fish and game money in the state special revenue fund and the federal special revenue fund.

(4) Except as provided in subsections (7) and (8), all money collected or received from fines and forfeited bonds, except money collected or received by a justice's court, that relates to violations of state fish and game laws under Title 87 must be deposited by the department of revenue and credited to the department in a state special revenue fund account for this purpose. Out of any fine imposed by a court for the violation of the fish and game laws, the costs of prosecution must be paid to the county where the trial was held in any case in which the fine is not imposed in addition to the costs of prosecution.

(5) (a) ~~Money~~ Except as provided in [section 2(3)], money must be deposited in an account in the permanent fund if it is received by the department from:

(i) the sale of surplus real property;

(ii) exploration or development of oil, gas, or mineral deposits from lands acquired by the department except royalties or other compensation based on production; and

(iii) leases of interests in department real property not contemplated at the time of acquisition.

(b) The interest derived from the account, but not the principal, may be used only for the purpose of operation, development, and maintenance of real property of the department and only upon appropriation by the legislature. If the use of money as set forth in this section would result in violation of applicable federal laws or state statutes specifically naming the department or money received by the department, then the use of this money must be limited in the manner, method, and amount to those uses that do not result in a violation.

(6) Money received from the collection of license drawing applications is not subject to the deposit requirements of 17-6-105. The department shall deposit license drawing application money within a reasonable time after receipt.

(7) Money collected or received from fines or forfeited bonds for the violation of 77-1-801, 77-1-806, or rules adopted under 77-1-804 must be deposited in the state general fund.

(8) The department of revenue shall deposit in the state general fund one-half of the money received from the fines

pursuant to 87-1-102.

(9) (a) The department shall deposit all money received from the search and rescue surcharge in 87-2-202 in a state special revenue account to the credit of the department for search and rescue purposes as provided for in 10-3-801.

(b) Upon certification by the department of reimbursement requests submitted by the department of military affairs for search and rescue missions involving persons engaged in hunting, fishing, or trapping, the department may transfer funds from the special revenue account to the search and rescue account provided for in 10-3-801 to reimburse counties for the costs of those missions as provided in 10-3-801.

(c) Using funds in the department's search and rescue account that are not already committed to reimbursement for search and rescue missions, the department may provide matching funds to the department of military affairs to reimburse counties for search and rescue training and equipment costs up to the proportion that the number of search and rescue missions involving persons engaged in hunting, fishing, or trapping bears to the statewide total of search and rescue missions.

(d) At the end of each fiscal year, any money remaining in the special revenue account after the transfers provided for in this section must be transferred to the general license account of the department.""

Special Revenue

(2) In the event one or both of the national guard armories located in Bozeman and Whitefish, Montana, and approved in House Bill No. 14 for replacement are sold prior to construction of the new Bozeman and Kalispell armories, the proceeds of the sale that were deposited to the general fund are appropriated for replacement construction up to a maximum of $4,000,000 and the bond authority in House Bill No. 14 is reduced by a like amount.

(3) The department of public health and human services is seeking federal funds for use in the construction of the special care unit, Montana veterans' home. If federal funds become available for this purpose, the department shall reimburse funds from the state special revenue account used to build the new unit. The total amount approved for the project from all sources is $1,179,374.

(4) (a) The 56th legislature authorizes four department of corrections' capital construction projects in the 2001 biennium. Funding for the projects is contained in House Bill No. 14 and subsection (1) of this section. The total project cost and the authorized funding for each project are as follows:

(i) $9,375,000 for the women's prison expansion in Billings, funded by $2,900,000 of general obligation bond proceeds authorized in House Bill No. 14 and by $6,475,000 of federal funds appropriated in subsection (1) of this section;

(ii) $2,225,000 for completing the Pine Hills youth correctional facility in Miles City, funded from general obligation bond proceeds authorized in House Bill No. 14;

(iii) $5,670,000 to construct a reception unit at Montana state prison in Deer Lodge, funded by $170,000 of general fund money and by $5,500,000 of federal funds appropriated in subsection (1) of this section; and

(iv) $3,000,000 for security improvements and expanding the Wallace building at Montana state prison in Deer Lodge, funded from general obligation bond proceeds authorized in House Bill No. 14.

(b) The 56th legislature notes that approximately $8,714,600 of federal department of justice funds are anticipated to become available for capital construction projects for the department of corrections in the 2001 biennium. It is the intent of the 56th legislature that the federal funds be used to the maximum extent possible. It is further the intent of the 56th legislature that the priority for using these federal funds is:

(i) up to $6,475,000 for the women's prison expansion project, line-itemed in subsection (1);

(ii) up to $526,497 for the Missoula regional correctional facility supplemental; and

(iii) up to $5,500,000 for the construction of the reception unit at Montana state prison, line-itemed in subsection (1).

(c) (i) It is the intent of the legislature that the department of corrections may not accept federal funds for capital construction unless all conditions necessary to receive

the federal dollars have been irrevocably met in advance of the expenditure of the federal funds.

(ii) It is further the intent of the legislature that federal spending authority for a capital construction project may be used only for the project identified in the law authorizing the project and may not be used for any other project.

(5) The appropriation for the Fort Peck fish hatchery in subsection (1) is contingent upon passage and approval of House Bill No. 20.

(6) The 56th legislature authorizes the construction of the rural technology education center at western Montana college of the university of Montana at a total project cost of $4,520,000. Subsection (1) of this section contains $350,000 in other revenue authority for this project, and House Bill No. 14 contains $4,170,000 in general obligation bond authority for this project. In the event that other additional funds become available for this project during its construction, the general obligation bond authority in House Bill No. 14 must be reduced by a like amount and other revenue authority is increased by a like amount in subsection (1) of this section for the same purpose.""

Appropriation Subcommittee of Long Range Planning committee report for HB 9.

1. This amendment clarifies the bill by placing the total appropriation for grant projects in the bill. As a result, the individual grants will not have to be summed to determine what the appropriation for the grants is.

2, 3, 4, 8, 9, 10, 11, 12, 13. These amendments increase the funding level of projects. All the amendments except 9 and 12 bring projects that had requested greater than $4,500 in funding to a minimum funding level of $4,500. Amendments 9 increases the Missoula Children's Theater project grant from $21,200 to the requested $30,000. Amendment 12 increases the Liberty Arts Center project from $6,300 to $12,300.

5, 6. This amendment strikes two projects that withdrew their grant proposals, Paris Gibson Square for $3,500 and Garnet Preservation/Garnet Ghost Town for $4,200. This provides an additional $7,700 in funds that can be used for other grants.

7. This amendment adds the Browning Community Development Corp. project to the funding in the amount of $9,000.

14. Amendment 14 changes the bill so that if there is a need to reduce grant amounts because of insufficient interest earnings in the trust, the Montana Arts Council will have the authority to reduce only those grants funded above $4,500.

Appropriation Subcommittee of Long Range Planning committee report for HB 6.

1 and 2. These amendments changes the title to reflect some of the changes made to the bill

3. This amendment increases the appropriation for renewable resource grants from $4 million to $4.6 million.

4. Corrects the county name for the Ranch County Water and Sewer District.

5. Removes the Sweet Grass County project from the grant funding.

6. This amendment adds the Missoula County Grant Creek project to the list of projects that could be funded with "funds not accepted or used by higher-ranked projects"(pg 1, line 29-30).

7. This amendment provides for a general fund transfer of $600,000. This is a one-time use of general funds. $600,000 was reduced from the one-time transfer of general funds to the long range building program.

8. This amendment makes a temporary change in statute. 85-1-604 restricts spending in the renewable resource grant and loan program state special revenue account from being used for any purposes other than the administration of the renewable resource grant program and the renewable resource grants. This amendment will allow other natural resource related administrative uses, which were appropriated in HB 2, in the account for the 2007 biennium only.

9 and 10. These amendments are technical amendments related to amendment 8 and terminate the section that allows other uses of the grant account at the end of fiscal 2007.

Appropriation Subcommittee of Long Range Planning committee report for HB 7.

1. This amendment puts the change of statute (made in the #5 amendment) into the title.

2. This amendment would increase the appropriation for grants from $4.0 million to $4.9 million.

3. This amendment would increase the grant to the St. Mary's studies and design from $300,000 to $900,000.

4. This amendment would add the Harlem Equity Co-op Bulk Plant project to the list of approved grants.

5. This amendment would reduce the repayment of $100,000 to the environmental contingency to $57,115.94. This change will allow the account to begin the next biennium at the full limit of $750,000.

6. This amendment makes legitimate, for the 2007 biennium only, the use of grant funds for other purposes. These purposes include the funding of other administrative and program costs in the departments of the DNRC and DEQ and the State Library but limits appropriations to natural resource related programs.

(i) provide matching funds to plan and construct regional drinking water systems in Montana;
(ii) pay the debt service for regional water system bond issues; and
(iii) ~~to~~ provide funding of administrative expenses for state and local entities associated with regional drinking water systems.

(b) Except for the debt service and administrative expenses provided for in ~~this~~ subsection (1)(a), each state dollar must be matched equally by local funds. Federal and state grants may not be used as a local match.

(2) Up to 25% of the local matching funds required under subsection (1) for the treasure state endowment regional water system may be in the form of debt that was incurred by local government entities included in the regional water system to construct individual drinking water systems before the individual systems were connected to the regional system. However, the amount of an individual entity's debt that may be used for matching funds is limited to the amount necessary to allow the entity to maintain its water service charges below the hardship standard established by the department through administrative rules adopted under 90-6-710.

(3) The funds in the account are further restricted to be used to finance regional drinking water systems that supply water to large geographical areas and serve multiple local governments, such as projects in north central montana, from the waters of the Tiber reservoir, that will provide water for domestic use, industrial use, and stockwater for communities and rural residences that lie south of the Canadian border, west of Havre, north of Dutton, and east of Cut Bank and in northeastern Montana, from the waters of the Missouri River, that will provide water for domestic use, industrial use, and stockwater for communities and rural residences that lie south of the Canadian border, west of the North Dakota border, north of the Missouri River, and east of range 39.

(4) The funds must be administered by the department of natural resources and conservation for eligible projects. (Terminates June 30, 2016--sec. 1, Ch. 70, L. 2001.)"

Appropriation Subcommittee of Long Range Planning committee report for HB 11.

1-3. These amendments change the title to agree with some of the changes recommended in this amendment.

4. This change will make the appropriation of $16.2 million for grants clearer. As currently written, the individual amounts would have to be summed to obtain the entire amount of the appropriation.

5-8. These amendments increase funding to the 4 top priority projects by $150,000.

9. This change corrects the name of the project.

10 and 11. These amendments change language in the bill. The language change would change the "potential funding" for the last 3 projects, projects 40 through 42. As currently written, the projects could be funded if interest earnings exceed projections. The subcommittee's recommendation to include the appropriation amount of $16.2 million would limit the department of commerce's ability to fund projects below the current funding line, even if interest earnings are sufficient. Instead, the change will allow the 3 projects to receive TSEP funding if any of the projects numbered 1 though 39 provide the department of commerce with a written grant termination.

12. This amendment changes 90-6-715, MCA. The change would allow bond debt service to be paid from the interest earnings of the Treasure State Regional Water special revenue account. This change will be necessary if HB 748 is passed.

13. This change clarifies that the $5.3 million is an appropriation, not an authorization.

14-16. These amendments are technical and adjust the numbering in the text to agree with the amendments.

17. This amendment coordinates HB 11 with HB 748.

- HB 748 provides bonding authority in the amount of the total interest earnings projected for the 2007 biennium, $5 million.
- HB 748 sets up an appropriation of the bonded funds. This appropriation serves the same function as the regional water appropriation in HB 11. As a result, the actions of the two bills are duplicative.
- If HB 748 is passed, the appropriation from HB 11 will be void. If HB 748 fails, the appropriation will stay in HB 11. In this way, we are certain that the appropriation is available to the program.

Appropriation Subcommittee of Long Range Planning committee report for HB 540.

1,2,8,11,12. These amendments direct the appropriations of bond proceeds in this bill to the department of administration and the department of natural resource and conservation. The department of administration will be charged with obtaining the bonding and payment of all debt service. As such, the appropriation must be given to the department who will then transfer the funds as needed.

3. This amendment adds the Montana Historical Society Building to the list of projects with bond funding of $7.5 million.

4, 5, 6, 7. These amendments change the funding:
4) Great Falls COT from $16.5 million to $11.0 million.
5) Billings COT from $9.5 million to $9.0 million.
6) The Petroleum Building from $7.0 million to $9.0 million.
7) Adds Gaines Hall Renovation project at $3.5 million and the Agricultural Experiment stations project at $0.5 million.

9. This amendment increases the bond limit from not to exceed $60 million to not to exceed $67.5 million.

10. This amendment make the bonding of the St. Mary water project contingent on the receipt of federal cost share dollars for the project.

13. This amendment adds severability to the bill. With this amendment, if any portion of the bill is invalid the entire bill will not be invalid.

HOUSE STANDING COMMITTEE REPORT

And, that such amendments read:

1. Page 1, line 26.
Insert: "NEW SECTION. **Section 3. Agreement with department of natural resource and conservation.** The board of examiners and the department of natural resource and conservation may enter into an agreement for the match to federal construction funds for the purpose of regional water projects, under which the department shall pay the state treasurer, for deposit in accordance with 17-2-101 through 17-2-107, an amount, as determined by the state treasurer, that is sufficient to pay the principal and interest due on the bonds and notes from which the appropriation was made. The agreement must further provide that income from the investment of bond proceeds, unused principal, and the reserves not required for a match to federal construction funds for the purpose of regional water projects may be credited against the department's payment obligation. Payment by the department must be made from available funds."
