I would love to be there for this, but cost will prevent that at this time. But Please pass on my concern in this.

They are worried about the cost. But only need to stop and think. Good counsel at the beginning of CPS cases's would save thousands of dollars compared to the way it is done now with counsel that is not evolved till after they are involved with the children several months and walked all over the child's and parents rights and little regard to what the laws of this state read. Counsel now only will tell you that that is the way it is and nothing can be done to change it. So they go ahead with on regular as what the law says, placing children in foster care that should no been there in the first place. Costing thousands in court, CPS medical, and child care expenses.

Thomas David Sylvester
