

Greetings,

I am a non-traditional student at MSU-COT-GF studying Business Management. Over the years I have watched the school evolve from a technical college to a well respected college in our community. At the same time, I have observed the financial support from the state continue to spiral downwards. This unfortunately puts more of the financial burden onto the students; the need for affordable higher education is paramount to improving Montana's economy. Higher education is the key to Montana bringing in employers who provide high paying jobs.

Sincerely,
Don Lundby
