**House of Representatives**  
*Legislator*  
**REP. KATHLEEN GALVIN-HALCRO**  
*Seat No. 90*

Dear Rep. Galvin-Halcro,

After my first year of having a Kindergartner I am in full support of a full day program. While reading and spending time with the children as class mom, I could experience first hand the wide variety of needs the children have. Some need so much attention to get them up to speed, others are doing well and want more. It is proven that a good start can head off future problems and feelings of inadequacy for those that have trouble. This I see now while reading to my daughter's first grade class. We need to give children the best start possible. Thank you for submitting this bill. Please let me know if there is anything I can do to help or anywhere I can direct my attention to help you.

Most sincerely,  
Joan Vetter Ehrenberg
