DP 19 TRANSPORTATION AID – INCREASED STATE OBLIGATION

“DP 19 Transportation Aid” appears on page E-21.

OPI requests \$100,000 in each year of the next biennium to meet the state’s obligation for district transportation costs. The state requires OPI to pay districts a reimbursement for bus mileage and individual parental mileage for pupil transportation. The state’s transportation payment for buses uses a statutory formula based on the size of a bus and number of miles driven. This request supports the state’s obligation under current law, and this is a biennial appropriation.
