Sub-Program Description

The Agriculture Experiment Station (AES) was established at Montana State University in Bozeman by the Montana legislature in 1893 under Hatch Act authorization enacted by the United States Congress. The station is the agricultural research component of the land-grant university's three-part mission of teaching, research and service. AES also has a cooperative program at the Fort Keogh Livestock and Range Research Laboratory in Miles City, where livestock production efficiency and rangeland resource research is conducted.

Present Law Adjustments

The "Present Law Adjustments" table shows the primary changes to the adjusted base budget proposed by the executive. "Statewide Present Law" adjustments are standard categories of adjustments made to all agencies. Decisions on these items were applied globally to all agencies. The other numbered adjustments in the table correspond to the narrative descriptions.
