Dear Christine,

My name is Jeannie Crabtree and I live in Billings. I get help from Job Connection Inc. to help me maintain my employment at Sodexo. I am funded with the Extended Employment program. I think that this program is really important because I probably wouldn't have a job without it. Throughout the nine years I've been with Job Connection Inc., they have helped me to find a job that I enjoy and am comfortable with. They helped me to increase my hours so I can earn more money and help pay my bills. They also help me to get out of the house to do social activities that I normally wouldn't do. I don't get out of the house very often so this helps to expand my social life and meet new people. There have many times I have needed a shoulder to cry on. Job Connection has given me the emotional support and encouragement I need to keep going with work and life in general. They also helped me to get on SSI and SSDI, which has been a blessing to me because it helps with my bills. I also get Medicaid and Medicare so I can have the routine checkups I need and visit a doctor when I need to. Job Connection helps me to keep track of my earnings so I don't lose these benefits. Without these benefits, I wouldn't have any insurance. Job Connection has also gone above and beyond the things they need to do for me. They once assisted me in finding a different place to live because my husband and I were in jeopardy of losing our home because we couldn't make the house payments. Thank goodness for them because my life is more stable with them in my life. I don't know what I would do without the help of Job Connection.

Sincerely,

Jeannie Crabtree
