

This program is the best program I have been in so far. I've been in Pact for 11 months and I'm doing the best I've done in years. Better than Warm Springs and Shodair. I have more freedom, I'm doing better on less meds than I was with more meds since I have been in PACT.

I have a job and a car and I have more freedom. Every other program I have been in has no freedom and it feels like it locks you in.

The PACT team understands more about my mental illness than any institution I've been in. My family members told my cousin that they were amazed how well I'm doing and that I can hold a rational conversation now. Before I went into Warm Springs I was headed towards prison. Now that I am in PACT, I'm headed toward a good job and college
